

FCC:

Please take my comments seriously, as well as the thousands of others I am sure you will receive concerning this case. Indiana's "No Call List" is quite possibly the greatest single accomplishment by a government entity in my lifetime. It works, and SHOULD NOT BE TAMPERED WITH!!! If you insist on changing it, strengthen it by not allowing ANYONE to call those of us who have taken the steps to place our phone numbers on the list. This is the ONLY changes that my family will deem necessary.

Thank You,

Steve Tucker
